SUMMARY

Computer Science engineering student with a strong technical foundation and a passion for tackling real-world challenges. Skilled in building projects that combine problem-solving with practical applications, while exploring emerging fields like Generative AI. Continuously seeking opportunities to learn, grow, and contribute to innovative solutions that address real-world needs.

EDUCATION

Bachelor of Technology in Computer Science and Engineering , PES University 2022 - 2026
Relevant Coursework: Operating Systems, Generative AI, Data Structures and Algorithms
CGPA : 7.81

Pre University, Presidency PU College 2020 - 2022
Achieved 13th rank in Karnataka for the Pre-University Exam
12th State Board Score : 97.4%

SKILLS

Programming:	Python, C++, Java, C
Machine Learning:	Scikit-learn, TensorFlow, PyTorch, OpenCV
Generative AI:	Transformers, LLMs, RAG, Hugging Face
Tools:	GitHub, Google Colab, VS Code

PROJECTS

Stock Market Price Prediction using Generative AI and XAI. (Ongoing)
Technologies: LLMs, Explainable AI, Scikit-learn
- Built a predictive model for forecasting stock prices using generative AI.
- Integrated Explainable AI to visualize financial predictions for better business decision-making.

Automatic Test Case Generation using LLMs (Capstone Project)
Technologies: Python, LLMs, Code Parsing, NLP
- Developed a framework to generate test cases for Python, Java, and C using large language models.
- Improved software quality by automating coverage analysis and reducing manual effort.

Monkey Type Bot using AI. GitHub
Technologies: Python, Selenium, PyAutoGui
- Automated typing on Monkey Type for perfect accuracy and speed simulation.
- Maintains undetectable status while enhancing typing performance.

Health and Wellness Tracker. GitHub
Technologies: Flask, MySQL, HTML, CSS, JavaScript
- Built a full-stack web app to track health metrics and visualize wellness goals.
- Implemented goal management, exercise tracking, and mood logging with a dashboard overview.

CERTIFICATIONS & ACTIVITIES

HackerRank Problem Solving (Intermediate) Certificate View Certificate
Validated problem-solving skills and ability to write efficient algorithms through coding challenges.

Hackathons & Extracurricular Activities
Actively participated in college hackathons and tech events beyond academics, encouraging teamwork and practical application of skills.
